

RESOLUTION NO. 01-1

Resolution Amending the Provisions of  
Resolution 93-3 and Resolution 99-1, concerning the registration of solid waste  
haulers and the establishment of Solid Waste Management fees

**Whereas**, the Board of Directors of the Boone County Solid Waste Management District (hereinafter "Board") previously adopted on the 10<sup>th</sup> day of November, 1993, Resolution 93-3 which established registration requirements for solid waste haulers and administrative fees for solid waste operations and activities.

**Whereas**, the Board previously adopted Resolution 99-1 on the 10<sup>th</sup> day of August, 1999, to amend Resolution 93-3 to provide penalties for non-compliance.

**Whereas**, the Board has received a recommendation from its Citizen's Advisory Committee that the District's administrative fees should be revised by reducing the generator fee for certain residential properties so as to establish an equal fee rate for all residential properties.

**Now, therefore, be it resolved by the Boone County Solid Waste Management District that:**

Resolution Nos. 93-3 and 99-1, as previously adopted, shall be amended with respect to Section 4 only so that said Section 4 reads as follows:

Section 4. District Solid Waste Management Fees.

(a) The District hereby imposes, pursuant to the authority of I.C. 13-21-14, the following solid waste management fees:

- (1) A fee of twenty-five cents (\$0.25) per month for each residential building in use in the Boone County Solid Waste Management District, which fee shall be payable by the person actually residing at a residential building, whether the owner or a tenant.
- (2) A fee of twenty-five cents (\$0.25) per cubic yard per pick-up/haul, on a monthly basis, for each Industrial/Commercial property located within the District at which solid waste is generated. This fee shall be payable by the owner or operator of the affected property.

Said fees shall be deposited to the Boone County Solid Waste Management District fund and shall be used for the continuing purpose of administering and implementing the Boone County solid waste district plan, to include, but not be limited to, the education of the public as to the necessity for the reduction, management, and disposal of solid waste and the recovery of waste products from the solid waste stream, all as mandated by state law.

- (b) With respect to residential properties located within the territorial limits of the City of Lebanon and the Town of Zionsville, the fees prescribed in paragraph (a)(1), above, shall be collected in conjunction with the municipality's residential solid waste and recycling collection program pursuant to contractual provisions established by the municipality with its contractor or contractors who provide the residential waste and recycling collection service. The fees collected by each municipality shall be remitted to the District on a monthly basis.

Resolved and adopted by the Board of Directors of the Boone County Solid Waste Management District on the 11<sup>th</sup> day of July 2001.
